Professional Summary

Digital Product Analyst with 5+ years of experience leading customer acquisition and engagement analytics across digital and physical channels. Proven ability to own end-to-end dashboard development in Tableau, leverage GA4 web and mobile event data, and translate complex behavioral insights into actionable business strategies. Experienced in Spark-based big data environments and Agile cross-functional teams, driving measurable improvements in conversion, reporting efficiency, and data integrity.

CORE COMPETENCIES

- Digital Product Analytics, Customer Acquisition Funnel Analysis, Conversion Optimization
- Google Analytics 4 (GA4), Event Tracking Validation, Tagging Implementation Monitoring
- Tableau Dashboard Development, Amazon Quicksight (Exposure), Power BI
- Apache Spark, PySpark, SQL, Python
- KPI Definition, Deep-Dive Analysis, Big Data Processing
- Agile Collaboration, Stakeholder Management, Executive Presentation
- Data Quality Monitoring, Reporting Optimization

Experience

Data Analyst (Contract)

Club Demonstration Services, Canada

Oct. 2025 – Present

- Led analytics initiatives integrating digital interaction data, POS transactions, and campaign metrics to analyze customer acquisition and engagement trends across multi-channel environments.
- Defined and implemented acquisition KPIs and funnel conversion metrics from scratch, providing stakeholders with visibility into performance drivers.
- Owned end-to-end development of interactive dashboards in Tableau and Power BI, delivering insights to 50+ stakeholders and reducing manual reporting efforts by 40%.
- Conducted deep-dive analyses identifying customer drop-off points and underperforming engagement touch-points, contributing to measurable improvements in promotional ROI.
- Collaborated with developers and business analysts to validate tagging logic and tracking implementations, ensuring data accuracy and measurement integrity.
- Presented data-driven narratives and strategic recommendations to senior leadership, influencing campaign optimization and resource allocation decisions.
- Reduced reporting turnaround time by 30% through SQL optimization and automated data validation processes.

Data Engineer

TheLightville Consulting, Nigeria

Feb. 2019 – Dec. 2023

- Developed and optimized Spark and PySpark-based ETL pipelines processing large-scale structured and semi-structured datasets to support enterprise analytics use cases.

- Partnered with analytics and product teams in Agile environments to translate business requirements into technical specifications for reporting and data transformation.
- Improved query and pipeline performance by 40% through indexing strategies and scalable data modeling techniques.
- Designed dimensional data models enabling standardized performance reporting and advanced analytics.
- Implemented data validation frameworks to ensure reporting accuracy and integrity across analytics systems.

Volunteering

Data Analyst

DataKind, Canada

May 2024 – Present

- Developed Python scripts for data cleaning and transformation of nonprofit datasets.
- Designed validation routines to ensure data accuracy prior to stakeholder reporting.

Data Analyst

Statistics Without Borders, Canada

Jan. 2024 – Present

- Conducted data validation, model review, and documentation to support analytical transparency and reliability in global health research projects.
- Maintained structured documentation of analytical methodologies to support governance and knowledge transfer.

Education

Master of Science, Big Data Analytics

Trent University

GPA: 94/100

Sept. 2023 – Jan. 2025

Peterborough, ON, Canada

Bachelor of Science, Civil Engineering

University of Benin

GPA: 4.5/5.0

Jan. 2013 – May 2017

Benin City, Nigeria

TECHNICAL SKILLS

- **Digital Analytics:** Google Analytics 4 (GA4), Funnel Analysis, Event Tracking, Tag Validation
- **Visualization:** Tableau, Power BI, Amazon Quicksight (Exposure)
- **Big Data:** Apache Spark, PySpark
- **Programming:** Python, SQL, R
- **Data Engineering:** ETL/ELT Development, Dimensional Modeling, Data Quality Monitoring
- **Collaboration Tools:** Agile/Scrum, Git, GitHub
